

Applaud Award

Presented to

Ujjwal Vishwakarma

Aim for greatness

Ujjwal joined the API Platform team as a fresher mid 2021 and has made significant contributions thus far. He built out schema validators for API configs, wrote Kong plugin validators and worked with Cloud Ops teams to stabilize CLP for APIs. All these contributed to improved operational stability and simplified stakeholder interfaces. Ujjwal designed the solutions and implemented them with little or no guidance. In addition Ujjwal is now the go-to person for our stakeholders on API implementation or support queries.

Your talent and dedication to our values is one of the greatest sources of success at Clarivate.

Thank you for your continued effort.
